

## PROFILE

I am a dedicated worker able to work well individually or as part of a team. I am very well trained in C# and JavaScript (both client and server side); have a decent grounding in Ruby, Python, Java, C, C++ and Rust; and a little experience in L<sup>A</sup>T<sub>E</sub>X, Erlang & Elixir and can pick up new programming languages quickly. I possess a high level of technical skills relating to the IT industry, and am a quick learner.

## EMPLOYMENT

### TELOGIS 2011 – 2015

- Full stack software engineer working on Telogis Route
  - Agile development, scrum for first two and a half years, then transitioned to a more fluid kanban system.
  - Distributed advanced Vehicle Routing Problem solver.
  - Initially fully C# system; ASP.NET web application, distributed services and Silverlight client.
  - Soon after starting began transition to a JavaScript client. Lots of interesting problems integrating the JS and SL parts of the client together.
- Member of a committee involved with moving development as a whole towards a more micro-service oriented architecture.
- Implemented new services running on Node and OWIN (.NET 4.5) to demonstrate utility of the new service design principles.

### UNIVERSITY OF CANTERBURY 2011 – 2011 COMPUTER SCIENCE AND SOFTWARE ENGINEERING TUTORING

- Tutoring undergraduate computer science students.
- Courses tutored:
  - COSC121 — Introduction to Computer Programming
  - ENCE260 — Computer Systems

### TAIT ELECTRONICS LTD 2010 – 2011

- Transform a tool from an internal protocol to utilise SNMP.
- Update SharpSNMP to support parsing more MIB data.
- Write a python utility to generate C mapping code from a set of XML, and config files.
- Write good accurate documentation on all changes.

### PLANT AND FOOD RESEARCH LTD 2009 – 2010

- Design a farm irrigation calculator based off a spreadsheet prototype.
- Implement the design in C#.
- Self manage the design and implementation of this program.
- Document the program.

### UNIVERSITY OF CANTERBURY 2008 – 2009 UNIVERSITY CENTRE FOR TEACHING AND LEARNING

- Support work around the new Moodle Implementation.
- Help run workshops teaching lecturers to use Moodle.
- Keep good records of work done, issues encountered, etc.
- Maintain confidentiality at all times.

OPEN SOURCE      SHARPSNMP      <http://sharpsnmplib.codeplex.com>  
Updated the MIB parser to support parsing more of the information contained<sup>1</sup>.

DEFINITELY TYPED      <http://definitelytyped.org>  
Contributed a variety of typings for libraries used at work and personal projects<sup>2</sup>.

OTHER      <https://github.com/Nemo157>  
A few small libraries and a variety of other small contributions to projects<sup>3</sup>.

STUDY      UNIVERSITY OF CANTERBURY      2008 – 2011  
BACHELOR OF ENGINEERING WITH FIRST CLASS HONOURS

- Computer Vision
- Advanced Computer Graphics
- Machine Learning
- Computer Hardware Engineering
- Control Systems
- Economics and Management

ACHIEVEMENTS

- I was selected for the National Science and Technology Forum, held in Auckland in January 2007.
- I was awarded Proximae Accessit for 2007 at Marlborough Boys' College.
- I achieved NCEA scholarships in Physics and Statistics with Modelling and got outstanding in Mathematics with Calculus in 2007.
- I was awarded the National Certificate of Educational Achievement (level 3), achieved with merit in 2007 and levels 1 and 2 in 2005.
- I achieved the pre-requisites for National Certificate in Computing (level 3) and National Certificate in Electronics Technology (level 2) in 2006.
- I was awarded the Koru Award for my outstanding performance during the 2009/2010 Summer Studentship programme at Plant & Food Research.

INTERESTS      Hockey, cycling, hobby embedded development, video games.

REFEREES      Available on request.
